**Building Financial Discipline.

Empowering the Next Generation of
Capital Builders.**

NCDF Impact Club is a financial literacy and entrepreneurship development platform designed to build financially intelligent, investment-aware, and innovation-driven young leaders across Nigeria. The School Programme institutionalises this initiative within primary and secondary schools. The School Programme is developed in partnership with the London School of Social Enterprise and Sustainable Economics, UK.

WHY THIS DISCUSSION MATTERS

Nigeria has one of the youngest populations globally.

Yet most students graduate without:

- Budgeting discipline
- Savings culture
- Enterprise exposure
- Capital market understanding

THE EDUCATION GAP

The traditional curriculum does not systematically teach:

- Financial behaviour
- Capital formation
- Structured entrepreneurship
- Investment literacy
- Students learn subjects — but not wealth discipline.

THE RISK OF DOING NOTHING

Without intervention:

- Consumption culture dominates
- Savings discipline weakens
- Informal entrepreneurship increases without structure
- Students lack long-term financial planning
